# Graphics MIDlet Example

Share on Google+

This is the another graphic example, where we are going to draw a image that look and act like satellite and earth.

## Graphics MIDlet Example

<-Prior

Index

Next->

This is the another graphic example, where we are going to draw a image that look and act like satellite and earth. For creating these types of graphics in J2ME we use MIDlet's. In the example we have created PacerCanvas class that extends the canvas class to draw this graphics.

Please find the methods that are used in this example..

```
getWidth();
getHeight();
setColor(255, 162, 117);
fillRect(0, 0, w, h);
setColor(0, 0, 255);
drawLine(0, w - x, x, 0);
drawRect(z, z, 30, 30);
fillRoundRect(z, z, 30, 30, 10, 10);
drawArc(z, z, 30, 30, 0, 360);
```

The Application is as follows:
